

*An anniversary is a time to remember  
about a couple's life.*

*A time to recognize that the strongest bond  
is the love between husband and wife.*

*Through times of happiness and times of sadness,  
love grows continually and they become as one heart,  
The other staying with them, in memory,  
even when they are apart.*

*Each anniversary is special and may cause a shed tear,  
for the bond grows ever stronger and stronger  
When love is shared for another year.*
